Ferdy

Little do we humans realize what secrets are concealed in the depths of forests, beneath bushes and in dark, rocky caves. Not only large animals live there, also smaller ones, and the very small ones – the bugs. Nature would like to keep her secrets to herself; nevertheless, the viewers' imagination will be captivated by this unknown fairy-tale world.

Follow with a smile the thrills and spills: the exciting, sometimes dangerous adventures and amusing antics of Ferdy, the boy-ant, and his friends. Whether it is the "Camp of the Red Ants", "The Flight in a Balloon" or "The Forest Fire", all these stories allow the viewers to enter and linger in the animal kingdom – the forest. Our lovable little bugs offer the viewer best family entertainment for young and old.
