## Global Ideas

Melting polar caps, devastating hurricanes, and rising sea levels. The changes ascribed to climate change are disheartening to say the least. Our series **Global Ideas** features people across the world who are pursuing innovative projects to counter global warming.

To reduce greenhouse gases, maintain biodiversity, provide food for thought, and promote effective action – these are the goals of the projects we profile. From Brazil to Lebanon, Indonesia to Namibia – we present a total of 160 initiatives that are exemplary in character and creative in approach.

Each show has four reports. All the projects are “best practice” models, featuring ideas worthy of emulation.
