## A Window on...

Cities are more than just a concentration of houses and people. Many are places with a very special appeal – not just for their residents, but also for visitors from all over the world. A city draws us in with its many attractions: cultural and leisure activities, restaurants and places to shop and browse. It is also a place where people go to realize their dreams, a place to live and work. **A Window on...** takes a look at some of the most beautiful and fascinating cities in the world – as seen through the eyes of people fortunate enough to live in them.
