## Euromaxx Pop'n'Art

The DW Transtel series **Euromaxx Pop'n'Art** traces an arc between very different artists and disciplines. Whether it's art pop or pop art – its creators all think outside the box. The series introduces you to some of these creators – both well-known and newcomers to the scene. They all share a passion for the unusual.

There is room for pretty much everything in this series – from cultural highlights such as an open-air production of *Aida* in the snow, to a report on a portrait by Claude Monet in Giverny, or a story about some very offbeat vinyl records. In addition, each program in the Euromaxx Pop'n'Art series showcases the work of a contemporary photographic artist.
