Euromaxx the Arts

Euromaxx meets the arts! The European art scene is a vibrant and exciting world brimful of ideas and creativity. The range is vast – from works of social criticism to ones that are playful or simply decorative. Contemporary art is show and business rolled into one. Rooted in tradition, it finds itself in a continuous process of reinvention. And **Euromaxx the Arts** is right there to witness that process.

From photography and painting to video and installation art, we accompany established stars of the art world as they go about their work, and present exciting newcomers and interesting collectors. **Euromaxx the Arts** – European art, from the studio to the market place.
