## Euromaxx Architecture

European architecture stands out through an almost unparalleled pluralism of style. The striking buildings of the modern era are characterized sometimes by structural achievements or the innovative use of materials, sometimes by a special language of form.

In view of such architectural variety, it is impossible to talk in terms of a pan-European style. Yet constants and popular stylistic devices can be identified. In postmodern architecture everything seems possible: from geometric cubes to organic domes, from neo-classical stylistic creations to futuristic constructions.

To a certain extent, the latest examples of postmodern European architecture pay homage to the old rule "form follows function", which dominated all schools of architecture and design in the early 20th century.

We proudly present **Euromaxx Architecture** showcasing the most important and exciting and also the most controversial European buildings of the 20th and 21st centuries.

#### SAMPLE EPISODE

Canal Town House in Amsterdam

A Home From Home: Saalbach

A Heavenly Home

Squaring the Family Home

A Wooden Home in Aarhus

The Bridge Builder
