## The Miraculous Cosmos of the Brain

A comparison of the human brain with the cosmos reveals astonishing similarities. The impenetrable infinity of the universe is paralleled by that of the brain. The great fascination of brain research derives from the hope of recognizing just what makes human beings “tick”. The goal is to find out more about the very nature of human existence. Without the brain there would be no human awareness and thus no links to the world around us or to other people. We would have no knowledge of ourselves.

- 01 The Brain – An Organ of a Special Kind?
- 02 Don't Believe Your Eyes
- 03 Pleasure and Pain
- 04 Human Beings – Manipulated by Their Brains?
- 05 The Advantages of Prejudice – How Humans Learn
- 06 The Different Levels of Consciousness
- 07 When the Brain Became Human
- 08 Our Senses Create Our World
- 09 When the World Doesn't Make Sense
- 10 The Brain Versus the Computer
- 11 The Fascination of Time
- 12 Man as Creator
- 13 Brain Damage and its Consequences
