## Variety Spectacular

Variety is a colorful program of performances by international artists who, irrespective of language barriers, provide wonderful entertainment for audiences young and old. The great renaissance of variety has continued from the 1990s through into the 21st century.

The DW Transtel series **Variety Spectacular** reflects this development. It presents selected performances of aspiring and entertaining stage art and documents the current level of development of resurgent variety in all its diverse forms: artistry, music, dance, acrobatics, comedy and much more.
