How to Be a Punk

Punk was more than just music: it was a form of protest, a way of life and an expression of a generation that rebelled against social norms. But does the subculture still have relevance today? **Arts Unveiled** writer Annika Sost embarks on a journey through time to show how punk has evolved since the 1970s. She speaks to British punk rock musician and author John Robb and visits the legendary Ramones Museum. Armed with a clutch of archive gems, she explores the question: What's it like to be a punk?

THE 77 PERCENT

Reclaiming the Sacred

For generations, African healing traditions and spiritual practices have been dismissed as superstition, witchcraft, or backward beliefs. Today, a new generation of young Africans is reclaiming traditional medicine and pre-colonial spirituality – not as a rejection of modernity, but as a way to reconnect with knowledge, identity, and history. This **The 77 Percent** report is filmed at the Soul of Africa Museum in Essen, whose unique collection includes a fully equipped Mami Wata altar, along with hundreds of objects, artworks, and historical materials related to African spiritual traditions and healing practices.

9/11 – The Day that Changed the World

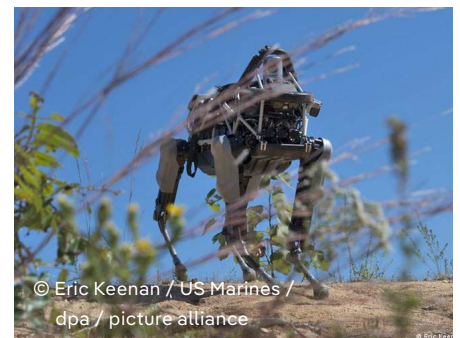

11 September 2001 set the world on a different course. Four hijacked planes hit the US – with the first aircraft crashing into the World Trade Center at 8:46 am local time. But how did a terrorist attack on this scale succeed? Both the CIA and the FBI had received crucial intelligence months beforehand. How did the agencies fail to connect the dots? To mark the 25th anniversary of the terrorist attack, DW broadcasts the two-part documentary **9/11 – The Day That Changed the World**. The film reconstructs the events of 11 September 2001 in precise chronological order: in the air, at Ground Zero and in the centers of power in the US. A factual analysis of a global turning point with continued resonance.
